

Quick Unroll Erosion Control

APPLICATION STUDY

Golf Cart Access

PROBLEM

PROBLEM: Ground surface is soft and conditions not suitable to drive golf cart on.

SOLUTION: Issue resolved by unrolling vegetated Australian Concrete Mats over access pathways, thus reducing risk to golfers, golf carts, and course turf from further damage.

SOLUTION

GREAT OUTCOME: Access pathways were became driveable and safe for patrons. Vegetation regenerated in a few short months. Using concrete erosion mats was quick solution, aesthetically pleasing, cost effective and easily maintained with commercial mower.

OUTCOME

- Quick to install
- Low maintenance
- Easy to mow
- Controlled erosion
- Reduced public hazard
- Aesthetically tidy
- Friendly to environment
- Sustainable solution
