

## Australian Concrete Articulated Blocks Specs

Material Weight (Approx)	208 kg per m2
Block Size (Approx)	HEIGHT: 120mm TOP FACE: 290x290mm BOTTOM FACE: 390X390mm
Spacing between blocks	15mm space (at base)

## Articulated Block Lengths

WIDTH	LENGTH	
		2400m
1200mm	Weight (kg)	600kg
	Mats/Truckload 24t	40 Mats

## Manufacturing Material Information

BLOCKS	INTERLOCKING Polypropylene Rope
40 MPA, Wet-Cast portland cement, 6% Air entrained with 8mm Aggregate	16mm Polypropylene Rope
	Breaking Strain of Approx 3500kg
BLOCKS	INTERLOCKING Stainless Steel Cable
32 Mpa, Wet-Cast portland cement, 6% Air entrained with 8mm Aggregate	4.8m, 316 Stainless Steel Cable
	Breaking Strain of Approx 1750kg
