

EROSION CONTROL MATS APPLICATION STUDY

ACM 0196

BEFORE

Gravel Road Drain

PROJECT DETAILS

Houghlahans Creek Farm driveway repair to roadside drain. During heavy rain events the loose gravel was continuously being washed out and eroded. Roadside drain and cross road rolling dip drain were lined with flexible concrete mats. The mat created a stable drivable surface, easy to anchor and maintain.

Mat: Flexible Concrete Erosion Mat

Underlay: Biodegradable Nutrition Mat

Anchoring: U Bar Anchors

PREPARATION
